

Assets included in this pack + what else to download

How to import included assets

1. Open your **new** URP project
2. Copy folders from AssetsToImport/ into the project Assets/ folder
3. Let Unity finish importing (can take a long time)
4. Prefer importing **one pack at a time** if your PC is slow

See HowToImport/IMPORT_ORDER.txt

SECTION MAP — what you need for each world part

1) Terrain / ground painting

Included (if copy succeeded):

Game_Textures, Game_Terrains, Free Island textures (if present)

Download if missing:

- PBR terrain texture packs (sand, grass, dirt, rock, snow, mud)
- Search: terrain textures PBR, ground textures free

2) Trees / forest / mountains

Included: ALP_Assets, Forst (import Conifers_URP.unitypackage), Game_RocksAndVegetation

Download if you want more:

- Extra oak/pine/jungle/palm URP tree packs
- Search: trees URP, palm trees URP, jungle vegetation URP

3) Grass / flowers

Included: ALP GrassFlowers, BushGrassBend tool

Download: more terrain detail grass if needed

Search: terrain grass flowers

4) Rocks / cliffs

Included: Free_Rocks, rocks inside Game vegetation pack, Game stone/desert models

Download: cliff megapack if you want bigger canyons

Search: cliffs rocks URP

5) Water / beach

Included: AQUAS-Lite, pier/boat models if present, Phantom water if copied

Download (recommended upgrade):

- Better **URP water**

Search: stylized water URP, URP water

6) Roads

Included: EasyRoads3D, KajamansRoads

Download: EasyRoads dirt/medieval road materials if asphalt looks too modern

Search: EasyRoads dirt road, medieval road textures

7) Bridges

Included: 3DWorldInSeconds_Bridges

Download: extra fantasy bridges if needed

Search: wooden bridge, stone bridge fantasy

8) Fantasy village / houses

Included: 3DForge_FantasyExteriors (main kit), Game sheds/well

Download:

- Market stalls / medieval props

- Interior tavern/shop

Search: medieval props, market stall, tavern interior URP

9) Player character

Scripts included: PlayerMotor (works with capsule)

Download optional:

- Starter Assets Third Person

- Fantasy hero character model

10) Cars

Included models (if copied): Game car folders (Jeep, etc.)

Download:

- Clean WheelCollider-ready cars OR any FBX + you add WheelColliders

Search: unity wheelcollider car, driveable vehicles

Script: CarController (already in Scripts)

11) Bikes

Included models (if copied): Jawa / street bike folders

Download: more motorcycle packs if needed

Script: BikeController

12) Planes

Usually NOT included

Download required:

- Simple airplane model URP

Search: airplane low poly, aircraft model unity

Script: PlaneController (ready)

13) Boats

Included (if copied): Alstra_Boats

Script: BoatController

14) Sky / lighting

Included: AllSkyFree

Download optional: more weather skies

Search: skybox free

15) Day/night + weather

Script included: DayNightCycle

Download:

- Rain VFX URP

- Optional full weather system

Search: rain VFX URP, day night cycle URP

16) Audio

Usually limited / not fully copied

Download required for living world:

- Waves, wind, forest birds, river, soft village ambience

Search: nature ambience, ocean waves loop

Script: AmbientZoneAudio

17) Wildlife / NPCs

Not fully included as a complete life pack

Download:

- Birds, animals, fantasy villagers

Search: birds flying, stylized animals URP, fantasy villagers

18) Castle / ruins / caves

Partial (village kit may help; dedicated castle often missing)

Download:

- Ruins pack, castle modular, cave pack

Search: ruins pack, fantasy castle modular, cave environment

19) Snow / desert / swamp / jungle biomes

Partial textures/models only

Download per biome:

- Snow terrain layers + winter trees

- Desert rocks + sand

- Swamp trees/fog props

- Jungle vegetation / palms

DO NOT prioritize downloading

- HDRP-only packs (wrong pipeline)
- Giant modern cities (style conflict)
- Huge RPG frameworks before your land exists
